

Solutions for the Industrial Market

THE VICTAULIC DIFFERENCE: PLANNING FOR REDUCED CONSTRUCTION TIME AND COST.

**Victaulic®**  
Piping. Systems. Solutions.

# Victaulic offers project management solutions for every step of the c

## PHASE 1

### Conceptual / Feasibility

By thoroughly understanding the customer's process and needs before we start, our project management solutions reduce man-hours, calendar days and overall dollars per foot.

## PHASE 2

### Detail Design

Victaulic piping system coordinators can assist with the review of drawings, specifications and submittals. Minimizing back orders, leftover material and unexpected costs.

## PHASE 3

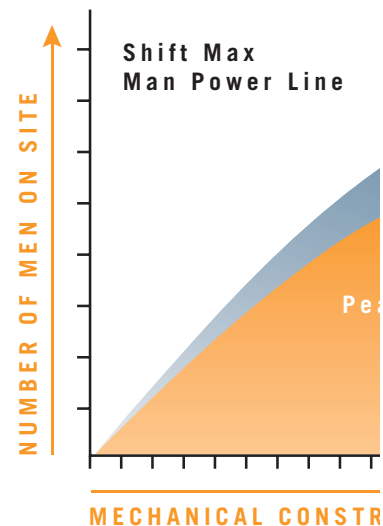

### Bid / Estimating

More competitive bids. More precise estimating. We streamline project design and workflow to maximize efficiencies. Victaulic provides material take-off comparisons, bill-of-materials conversions and more so that you can save time and money.

### Benefits include:

**REDUCED** MAN-HOURS  
CONSTRUCTION SCHEDULES  
PROJECT RISK

**INCREASED** SAFETY  
PRODUCTIVITY  
SAVINGS

onstruction cycle.

#### PHASE 4

#### PHASE 5

#### PHASE 6

### Planning

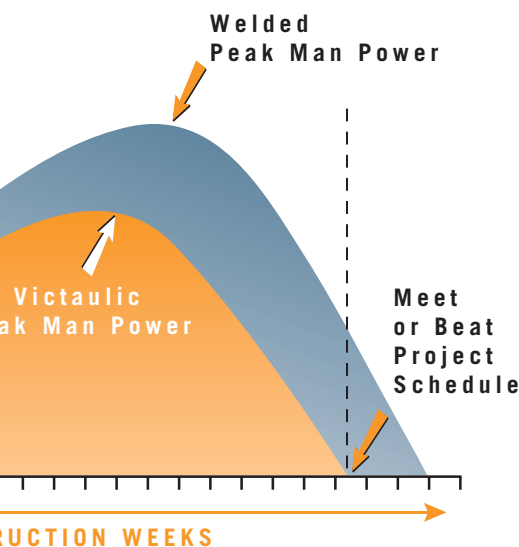

From advanced ordering of materials to ensure timely procurement, to our bag-and-tag services — our expert piping layout coordinators will make your project implementation hassle-free.

### Construction

Easy to install. A union at every joint. The Victaulic mechanical pipe joining system gives contractors maximum field flexibility and on-site decision-making. And requires no hot work permits, flames or fire watches — increasing safety while reducing man-hours.

### Post Construction

Our union-at-every-joint design minimizes maintenance activity and results in less time spent on system shutdowns.

### Man-Hours Comparison

**FEWER MAN-HOURS = LESS EXPOSURE AND PROJECT RISK.**

Victaulic conservatively estimates that jobs requiring welding applications demand up to 45% more man-hours on average over Victaulic no-flame piping solutions. Average construction costs can be as much as one-third higher than when using Victaulic. The more you increase your man power, the more you increase your construction cost curve.

Solutions for every step. Assistance for every need.
