Now available in South Asia Pacific, the VicFlex™ Style AB12 Bracket

EASTON, Pa. – November 5, 2017 – Victaulic's [VicFlex™ Style AB12 Bracket](#) is now available in South Asia Pacific. Designed for both lay-in panel and hard-lid ceilings utilizing wood or metal studs or joist, the bracket allows vertical adjustment of sprinkler height in a hard-lid ceiling without breaking the ceiling plane.

Part of the VicFlex product line, the AB12 offers unparalleled confidence with 100 percent kink resistance, unmatched installation speed and industry-leading performance. Installing the bracket is simple, with only one tool required, and with no need to disassemble the bracket prior to installation. The thread-free system keeps the jobsite clean while reducing costs and increasing safety. Simple, organized pallet delivery of VicFlex products ensures that nothing will be misplaced and reduces material handling costs.

About Victaulic

Since 1919, Victaulic's pipe joining and flow control solutions have optimized construction productivity and reduced risk, ensuring projects are completed safely, on time and within budget. Driven by a spirit of continuous innovation, Victaulic's portfolio of 100,000+ products and patented technologies promote freedom of design, as well as simplified inspection and maintenance for the life of any system.

With more than 3,500 employees and 40 international facilities, Victaulic helps customers in over 120 countries succeed in the global construction industry. From the tallest buildings to the deepest mines, customers trust our products to increase overall system durability in the most demanding construction projects and operating conditions.
